

*Krzyżowa is a place of German history and since 30 years a foundation for mutual understanding in Europe. In August 2021, for the seventh time, a number of internationally renowned and established musicians of our time will meet with carefully selected young talents from the European classic scene. In a relaxed atmosphere the chamber music ensembles under the artistic leadership of Viviane Hagner will have sufficient time to explore and to study in-depth rarely played or well-known pieces. The programmes for the summer concerts as well as the late summer tour result from the work in Krzyżowa.*
